

**Statement of Position - Comments on N2021-1**

Jun 11, 2021

To the Postal Regulatory Commission:

I am not part of the Postal sector; I am a US citizen who believes in the Postal Service as a founding principle of our country.

I am writing in opposition to all of Postmaster DeJoy's plans for the Postal System. His plans do not improve anything and by design would further degrade service and standards.

I believe in the Postal Service and the survival of a public agency the people of the US rely on. The private sector is not a solution to problems intentionally implemented to make cause for privatization. There is a very good reason private carriers rely on USPS for the last mile deliveries in rural areas.

I have already experienced the effects of DeJoy's intentional slowing of services, his new plan will irreparably harm the service. I support rejecting this plan and the reversal of all changes made by DeJoy since his appointment.

The PRC should study what would make the USPS viable and once again reliably efficient.

While Congress needs to repair damage done to the USPS the PCR can help prevent further damage by rejecting the DeJoy plan.

Always,
